

'Hebrew–Revelation' (4NT522) – 3 hours

Syllabus

INSTRUCTOR

Dr Bruce Lowe received his first doctorate in Analytical Chemistry and taught, consulted and researched in a university setting over several years in both Chemistry and Chemical Engineering departments. He then completed his MDiv at RTS Orlando, becoming an ordained Presbyterian minister and working in university ministry, as a youth pastor, in church revitalization and church planting. He is in the final stages of a doctorate in New Testament Studies where his thesis has focused on the purpose of Romans through attention to its cultural setting. **Besides a special interest in Paul, the message of James has been a subject of recent attention - an article on James 2.1 will be published next year in a book on the ongoing 'Pistis Christou' debate. He has also spent significant time in Revelation, and is especially exciting about helping students understand this important though difficult book.**

COURSE DESCRIPTION

In the wisdom of God he has given us a diversity of personalities and styles of writing in the Bible. It is a joy that we have in the NT, not only the Gospels and Paul's writings, but also the writings of Peter and of James and of Jude, and the very different style of Revelation. All these things are a gift from Him to round out a picture of God, of his Son Jesus, of the history of his plan and his challenge for how we should live as Christians today. This course focuses on what is perhaps the lesser known parts of the NT – though no less important for us today.

LEARNING OBJECTIVES

1. To provide a general understanding of all 9 works – Hebrews to Revelation.
2. To highlight the specific value of each of the 9 works for today – i.e. in a) Personal living; b) General Pastoring; c) for the lost; d) in Counseling; and d) for Youth work.
3. To resolve the key issues & 'problem passages' in each of the 9 works.

4. To highlight passages of ‘special importance’ in each of the 9 works and to investigate how they might be preached to our present generation.
