Research Paper (Due: sometime in October)

Choose a controversial topic in contemporary Reformed theology (e.g. Scripture, creation, sabbath, justification, covenant of works) and survey its development in the 16th century Reformers, in the Westminster Standards, and in subsequent reflection in the Reformed tradition. In what ways can you identify the development of Reformed theology on this topic? What is the distinctive contribution of the Westminster Assembly? How does it compare with previous and subsequent Reformed thought? How ought the church further to develop this teaching?

Confession Paper (Due: sometime in November)

Write a contemporary confession of the Christian faith. You may choose to do a comprehensive statement for a denomination, a specific statement that addresses a particular controversy (e.g. Federal Vision), or an abbreviated statement for a church website. (More details on this assignment to come.)
