

## Research in Ministry (RIM<sup>®</sup>) Submission Form

RESEARCH IN MINISTRY: AN INDEX TO DOCTOR OF MINISTRY PROJECT REPORTS AND THESES is an abstracting and indexing service that uses author **abstracts** to provide a useful access tool for clergy, students, and others on practical aspects of parish ministry. If you wish to participate, please submit an abstract of the project in the space provided. Please type or print clearly.

Note: The following permission release needs to be signed for inclusion of your D.Min. abstract into RIM. Our goal is to have all RTS-Charlotte D.Min. projects abstracted in RIM (NOTE: this does NOT mean that the entire text of your project is loaded into RIM.)

### PERMISSION RELEASE:

I, the author of the following abstract, hereby give permission to Research in Ministry (RIM): An Index to Doctor of Ministry Project Reports and Theses, to edit and publish the following abstract and to include it in all online information retrieval systems used by the American Theological Library Association, Religion Indexes. In addition, I certify that I have not assigned or granted my right to apply for a copyright, if any in the following abstract.
